Electronic Health Information export Documentation

This document describes the details for §170.315(b)(10) Electronic Health Information export

Contents-

Overview.....	3
Single Patient Export.....	3
Export patient data (CCDA-Date) hyperlink.....	4
Output in C-CCD output	5
Population Export	5
Support.....	6

Overview

Medvantage EHR meets the certification criterion ***§170.315(b)(10) Electronic Health Information export*** by implementing the CCD Export for Single Patient. This helps the clinical users to generate the Clinical Care Document for a single patient with the standards specified in *§ 170.205(a)(4) HL7 CDA R2 IG: C-CDA Templates for Clinical Notes R2.1 Companion Guide: Release 2-US Realm, Oct 2019* To achieve this, we have implemented,

- Single Patient Export in the CCD format which can be printed in Adobe PDF format.
- Ability to download the Images / Clinical notes on demand and can be printed in Adobe PDF format.

a. Single Patient Export

Click on export patient data (CCDA-Date) hyperlink-

- Next screen will appear.

The illustration shows a woman sitting at a desk with a laptop. On the laptop screen, there is a login form with a red padlock icon, the email address 'user@example@gmail.com', a password field with asterisks, and an 'ENTER CODE' section with four input boxes. A printer and a potted plant are also on the desk.

Verify UHID

Enter UHID

Verify UHID

- Enter the UHID and Click on Verify UHID button. Next screen will appear.

The illustration is similar to the previous one, but the laptop screen now shows a verification code '64370' in the 'ENTER CODE' section.

Verify OTP

Confirmation for your identity
We sent an message with a verification code to your register mobile number
XXXXXX5449 [Not You?](#)

Enter it below to confirm your identity.

Verification code

Verify OTP

Resend verificationcode

- Enter the OTP and Click on Verify OTP button.

- Now you will be able to export the data of patient from the Medvantage Software successfully.
